

Invitation to the C40 World Mayors Summit, 9th - 12th October, Copenhagen

Dear Winni Grosbøll,

On behalf of the City of Copenhagen and C40 Cities, we are delighted to invite you to the seventh **C40 World Mayors Summit**, taking place in Copenhagen from 9th - 12th October 2019.

The Summit will gather mayors from the world's leading cities alongside global influencers, business leaders, philanthropists, campaigners, scientists and citizens, to showcase and accelerate the most effective climate solutions being delivered in cities worldwide, and build a global coalition that rallies around the radical and ambitious climate action our planet needs.

Previous C40 Mayors Summits -- in Mexico City, Johannesburg, São Paulo, Seoul, New York City and London -- have made headlines around the world by launching ground-breaking research, showcasing innovation from cities and debuting new partnerships to promote creative urban solutions to climate change. In Copenhagen, mayors will take stock of progress made over the past decade and show how they are accelerating action to deliver on ambitious commitments to achieve the future we want.

As the host city, Copenhagen will make visible the wide range of successful and ambitious climate solutions that the city has to offer. We hope to show you a society characterized by being creative, open and equal, where businesses and citizens participate and engage in creating the experimental climate actions of tomorrow.

The main Summit programme will take place on the 10th & 11th of October in the Tivoli Congress Centre. It will take place alongside side events, press conferences, citizen engagement activities and site visits that will take place throughout the city from the 9th - 12th of October.

We have reached a defining moment for humanity. To achieve the goals of the Paris Agreement, to keep global temperature rise under 1.5°C and avoid a climate crisis, we need to act faster and with more urgency than ever before. We are stronger and more effective when we join together. **We do hope you can join us at this momentous Summit, to help us build a more sustainable, equal and healthy future for all.**
